

**Running boards Side Steps suitable for [AUDI Q5](#)  
8R (2008-2016) KITT Design**

# 1) Fitting the Running Boards Side Steps/ Montarea Pragurilor

## ACCESSORIES/ACCESORII

A

B

**A image: All accessories** (Toate accesoriile)

**B image: Brackets for one side of the car (3/side)** (Bracketii pentru o latura a masinii; 3 pe o parte)

- Put the screws (6/side) into the holes below the side step and link it to the brackets using screw nuts to tighten the screws below.

*(Puneti suruburile in orificiile de sub prag si uniti-le cu bracketii(prinderile pragurilor). Dupa aceea, folositi piulite pentru a strange suruburile de dedesubt)*

**2) Cut the shield under the car where the brackets are for a perfect fit/**

**Decupati scutul de sub masina acolo unde sunt bracketii pentru o potrivire perfecta.**

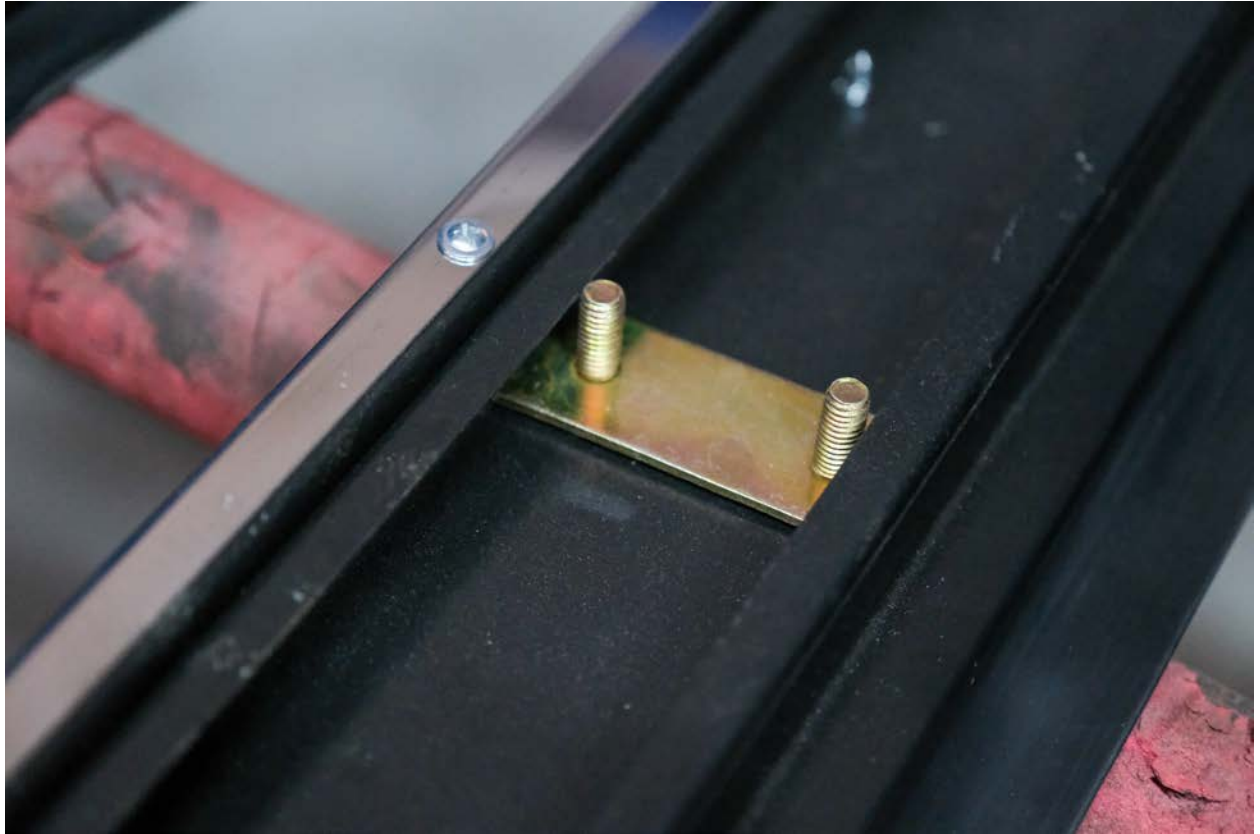

### 3) Fitting the side skirts/ Montarea pragurilor

- Undo the screw nuts from the side skirts and adjust the screws according to the brackets.  
( Desurubati piulitele de pe suruburile pragurilor si aranjati suruburile in functie de prinderile pragurilor(bracketii) montate anterior pe masina)

- Tighten the screws underneath the Side Steps / Strangeti suruburile de sub praguri

**The result it's kinda great 😊 / Rezultatul este destul de grozav**
