

## Installation Instructions for the Air Diffuser CBMBW222S63FB

In addition to danger to persons and objects, this product must be installed correctly. Only trained and qualified personnel with relevant technical experience and professional tools can install this product.

Therefore, you must read and fully understand these instructions.

### **Included in delivery:**

Rear lip x 1

Rear exhaust tailpipe x 2

Rear exhaust tailpipe mounting bracket x 2

Round screw spacer x 2

Round screw x 2

Square screw spacer x 2

Square screw x 2

## STEPS

1

Refer to the example picture, use professional tools to cut off part of the installation bracket at the position shown in the picture in order to match the tail pipe.

**Note:** Compare the installation position of the tail pipe, cut off the appropriate parts, and try them one by one until they match.

2

After cutting, assemble the tail pipe and tail pipe bracket on together.

3

Then use self-tapping screws to attach the tailpipe bracket and tail lip.

Fastened together with the locking plate.

**Note:** Use the same method to fix it left and right.

4

Install the reflector, slightly secure it in the correct position on the inside of the bracket, and then connect the tail lip to the rear bumper.

5

After you have mounted the tail pipe with the bracket on the diffuser, mount the diffuser on the rear bumper.

**Fix and secure the bracket to the car's clamps.** (see picture)
